- | | |
|-------------------------------|--|
| 1. Site Description | 6. Report (outlining main planning issues) |
| 2. Description of Development | 7. Conservation Area Advisory Group |
| 3. Planning History | 8. Recommendation |
| 4. Consultations | * Council / <u>Committee Delegated</u> |
| 5. Representations | * Circle as applicable |

1. This is a ^{3.4} 3.8 acre site located adjacent St. Donaldeg's Parish Church, Floundagh. The site formerly contained a number of buildings including Great House Farm, but all buildings on the site have now been demolished.

2. This is an outline application for "residential development including new access road". The application forms indicate that all matters have been reserved for subsequent approval. A ~~larger~~ plan has nevertheless been submitted indicating a form of layout with 18 dwellings and access to Lockworth Rd.

3/8946/3337 13 No houses - same site. Approved conditionally 25th July 1972

4. Floundagh C.C.: "The Council has no objections to the application but wish to point out that part of the land in question is registered village green. A copy of the register plan is attached which shows the extent of the land in question."

Director of Engineering & Building Services: "Public foul sewer only available. Alternative means of disposal to be found for surface water." Further detailed comments state: (pl. type ③ attached)

National Fire Authority: (please type attached obs ①)

The County Engineer: (please type attached obs ②)

Cardiff Bay Development Corporation: "No objections - however, the Corporation would hope that the trees on the slope of the site facing north-west are retained and that the public right of way which runs through the site will be retained"

The Glamorgan - Gwent Archaeological Trust has enclosed a detailed document with their comments and recommendations, and has requested that the information be conveyed to Members of Committee. This is attached as Appendix A to this report. Following discussions with the Trust, further comments were received on the 3rd February 1980 and a copy of these are attached as Appendix B.

4/ cont. Welsh Water :-

"The Applicant should liaise with the Technical Section of your Council (who act as Sewerage Agents of this Company) with regard to foul drainage of the site. It should be noted that a connection will Not be permitted to the nearby Eastern District Pumping main."

5/ Two letters have been received from the Barry Preservation Society and Gwent Trust and a ^{local} County Council (who is a member of the Glamorgan Gwent Archaeological Trust) making representations in respect of this application and a copy of both these letters are attached to this report as Appendices "C" and "D" respectively.

6/ The Applicants' Agents have written in response to the report of the Glamorgan Gwent Archaeological Trust Ltd. on the site and a copy of this letter is attached to this report as Appendix "E".

The greater part of the land is allocated for new residential development in the East Vale Local Plan (Policy No H.2.). The information supporting the policy states that buildings on the site should be retained, however ~~the~~ were unfortunately demolished a little while ago. The part of the site not allocated in the Local Plan is nevertheless located within the developed area shown in the Plan and it would appear, ^{therefore,} that all the site is generally acceptable in development terms although sections of the land would be too steep to be developed satisfactorily. The site includes a registered village green and is crossed by a public right of way. ^{A very small area is also the subject of a Tree Preservation Order.} Following the correspondence between myself, the Applicants' Agents and the Glamorgan Gwent Archaeological Trust Ltd. ^{and} if the Council are minded to approve this application, ^{I would suggest that a} condition should be imposed which is the standard condition for this situation recommended in Appendix B to Welsh Office Circular 1/85.

87. Agree.

Conditions:-

1. A020.

2. A002.

3. A004.

4. A132

(Unbacked ground con.)

A457 5. All structures, including proposed dwellings, garages and other buildings
new erected within the curtilages of individual dwellings, shall be erected on the
level areas of land and no structures shall be erected on the steep
sloped or wooded areas of the site.

A458 6. The detailed plans to be submitted shall show an area of land
new a minimum of 0.1 ha (0.25 of an acre) in area located adjacent to
Dechworth Road and the ~~site~~ boundary with St. Doehdwy's Church,
being reserved as a village green / amenity area.

A459 7. Vehicular access to the development, with sightlines of 4.5m x 60m.
shall be provided at the north western edge of the site, onto ^{the} A4055
Dechworth Road.

A460 8. Any estate roads for the development shall be a minimum of 5.5m in
new width with a minimum of 1.8m wide footways and 10.5m kerb
radii at its junction with the A4055.

9. A371. « which runs along the north western boundary over
the site ».

10. A215.
