 3. Planning History
 4. Consultations
 5. Representations
 6. Report (outlining main planning issues)
 7. Conservation Area Advisory Group
 8. Recommendation
- * Council / Committee Delegated
* Circle as applicable

1. This is a ^{3.4} 3.8 acre site located adjacent St. Donagh's Parish Church, Floundagh. The site formerly contained a number of buildings including Great House Farm, but all buildings on the site have now been demolished.

2. This is an outline application for "residential development including new access road". The application forms indicate that all matters have been reserved for subsequent approval. A ~~proposed~~ plan has nevertheless been submitted indicating a form of layout with 18 dwellings and access to Lockworth Rd.

-8996/3337 13 No. houses - same site. Approved conditionally 25 July 1972.

4. Floundagh C.C.: "The Council has no objections to the application but wish to point out that part of the land in question is registered village green. A copy of the register plan is attached which shows the extent of the land in question."

Director of Engineering & Building Services: "Public foul sewer only available. Alternative means of disposal to be found for surface water." Further detailed comments state: (pl. type ③ attached).

National Fire Authority: (Please type attached sb. ①)

The County Engineer: (Please type attached sb. ②)

Cardiff Bay Development Corporation: "No objections - however, the Corporation would hope that the trees on the slope of the site facing north-west are retained and that the public right of way which runs through the site will be retained. The Glamorgan - Gwent Archaeological Trust has enclosed a letter comment with the comments and recommendations, stating that the Corporation is concerned to ensure that the site is developed in a way which will preserve the archaeological interest of the site."

at. Welsh Water :-

"The Applicant should liaise with the Technical Section of your Council (who act as Sewerage Agents of this Company) with regard to foul drainage of the site. It should be noted that a connection will not be permitted to the nearby Eastern District Pumping main."

Two letters have been received from the Barry Preservation Society and Civic Trust and a ^{local} County Council (who is a member of the Glamorgan Gwent Archaeological Trust) making representations in respect of this application and a copy of both these letters are attached to this report as Appendices "C" and "D" respectively.

The Applicants' Agents have written in response to the report of the Glamorgan Gwent Archaeological Trust Ltd., on the site and a copy of this letter is attached to this report as Appendix "E".

The greater part of the land is allocated for new residential development in the East Vale Local Plan (Policy No H.2.). The information supporting the policy states that buildings on the site should be retained, however ~~it~~ was unfortunately demolished a little while ago. The part of the site not allocated in the local plan is nevertheless located within the developed area shown in the Plan and it would appear, ^{therefore}, that all the site is

acceptable in development terms although sections of the land would be too steep to be developed satisfactorily. The site includes a registered village green and is crossed by a public right of way. ^{A very small area within the site is also the subject of a Tree Preservation Order.} Following the correspondence between myself, the Applicants' Agents and the Glamorgan Gwent Archaeological Trust Ltd. ^{and} if the Council are minded to approve this application, ^{I would suggest that a} conditions should be imposed which is the standard condition for the situation recommended. Appendix B to Welsh Office Circular 1/55

18. The detail plans to be submitted shall pay full regard to the results and findings of the archaeological investigations referred to in condition 17 above.

The reason(s) for the Council's decision to grant permission for the proposed development, subject to compliance with the condition(s) hereinbefore specified are:

1. To comply with the requirement of Section 42 of the Town and Country Planning Act, 1971.
2. To comply with the requirements of Section 42 of the Town and Country Planning Act 1971.
3. To comply with the requirements of Section 42 of the Town and Country Planning Act 1971.
4. To ensure a satisfactory form of development.
5. To retain and enhance the existing registered village green.
6. In the interests of highway safety.
7. In the interests of highway safety.
8. To ensure that no obstruction takes place on the public right of way.
9. To safeguard local visual amenities.
10. To ensure the satisfactory drainage of the site.
11. To ensure a satisfactory form of development.
12. To provide satisfactory off street parking facilities.
13. To ensure the provision of satisfactory private amenity space.
14. To safeguard the privacy of adjoining occupiers.
15. To safeguard local visual amenities.
16. To enable satisfactory archaeological investigation.
17. To enable satisfactory archaeological investigation.
18. To ensure that the future development of the site has regard to the results of the archaeological investigations.

Dated: 13th March, 1990
